SUMMARY

Senior Product Designer with 8+ years of experience specialized as an AI-Native Product Designer focusing on **B2B automation and Agentic workflows**. Proven track record of Lead-level impact in rapid prototyping and building high-conversion SaaS solutions using GenAI and LLMs.

EXPERIENCE

Elsa Corp (AI-Native Learning)

July 2024 – Present

Senior Product Designer

San Francisco, Remote

- Launched multiple AI-driven English learning games, achieving a **24% increase in platform conversion**.
- Led AI/Engineering collaboration to build **specialized B2C & B2B games** for personalized learning paths.
- Rapidly prototyped micro-interactions using AI tools (Claude, Cursor, ComfyUI), **reducing discovery-to-dev handoff duration by 38%**.
- Mentored junior designers and established cross-team Design QA practices to ensure world-class handoff quality.

Unacademy (EdTech SaaS)

Aug 2022 – July 2024

Product Designer

Bangalore, India

- Led end-to-end design for **B2C & B2B SaaS platforms** including Graphy.com and **automated center management tools**, resulting in a **17% improvement in user retention**.
- Partnered with product and data teams to deliver scalable design systems, **supporting 50+ new feature deployments annually**.
- Managed full-cycle UX research and delivery, prioritizing product-led growth for 150k+ active users.

Newzera

May 2021 – July 2021

Interaction Design Intern

Indore, India

- Designed core user flows and high-fidelity microinteractions for an AI-driven news platform to enhance touchpoint intuition.

Probano

Jan 2020 – July 2020

User Experience Designer

Delhi, India

- Orchestrated complete branding and UI redesign for a career counseling platform following its acquisition, focusing on end-to-end user workflows and **achieving a 32% surge in organic engagement**.

Freelancer

Jan 2016 – July 2020

UI/UX & Graphic Design

Remote

- Collaborated with early-stage startups to **deliver 5+ B2C & B2B MVPs** with an average **concept-to-ship time of under 3 months**.
